

It's Perfectly Safe The Doctor Said

Invisible poison mist Inside
Floxin Naldic Acid in my blood tides
Floats inside calves, ankles, and toes
Sprinkling droplets of burning pain
From bones to brain
Even the pituitary and all in-between.

Nowhere to run
In this hell I've been done
Done done
For twenty five years
Twenty four seven tears
A war I waged
Under dosed pain meds
Disbelieved my permanent pain
I'm NOT a '51 Druggie Commie Red
IT IS NOT IN MY HEAD
FQ molecule adducted to blood cells Healing PreventED
Crazy making chronic pain
J & J medicine labels lied like flood rain
Hiding the worst out COMES
Never said to STOP if even little inflammaSHUN
Their Board of Directors blind BUMS.
Back room Deals with FDA
 Denied the human toll
Many patients would have to pay.
Lost lives, families broken, many suicides,
Bankrupt, jobs lost, untold people died
 "Can't Take The TORTURE"
Just "collateral" damage to bury and HIDE
To Switzerland or a '38 they said Good Bye.
I found Columbia Doctors
They are a great part
Reconstituting medicine
As a healing art.
Hope for LIFE.

Paul Cahan Oct. 2023

(FQ molecule is a floroquinolone component in all “fq” toxic antibiotics)
